August 29, 2011

Senator Bernie Sanders  
332 Dirksen Building  
U.S. Senate  
Washington, D.C. 20510

Dear Senator Sanders:

I am writing to express my support of your introduction of the Keeping our Social Security Promises Act.

This bill will apply Social Security payroll taxes to incomes above \$250,000 and is identical to what President Obama campaigned on in 2008.

OWL-The Voice of Midlife and Older Women is proud to advocate for and educate one of the most politically engaged populations in America: women 40 and over. For more than 30 years, we have fought to improve the status and quality of life for women as they age, particularly in the areas of retirement security and health care.

The Keeping our Social Security Promises Act will see that Social Security remains solvent for years to come and will continue to provide the much needed support to our constituency.

Thank you for your work on this issue and the continued support of issues affecting women 40 and over.

Sincerely,

Bobbie Brinegar, MSW  
Executive Director
