

July 22nd, 2025

Dear Member of Congress:

On behalf of our millions of members and supporters nationwide, we write to you in support of the **End Polluter Welfare Act** (Sxxx / HRxxx). This legislation would rein in the corporate power of the polluting fossil fuel industry, lower climate emissions, reduce related harm in frontline communities, and raise billions of dollars in revenue over the next ten years.

The End Polluter Welfare Act is the most comprehensive legislative proposal to address the billions in special interest subsidies that disproportionately flow to the oil, gas, and coal industries. These subsidies include century-old tax loopholes, giveaway leasing rules for extraction on our public lands and waters, and newer handouts of billions of dollars for false solutions that would keep fossil fuel projects alive for decades, and inappropriate backing from export credit and development finance agencies.

We must end the over \$190 billion in taxpayer subsidies and giveaways for the fossil fuel industry. We are united and ready to face this opportunity to defend against any attempts to broaden the suite of existing subsidies for the fossil fuel industry, and to pass critical tax reform legislation to help everyday people and ensure that fossil fuel corporations finally pay their fair share.

Sincerely,
